 www.linkedin.com/in/bramha-vinayak-gulavani-31302a30b

SKILLS

- ❖ **Programming Languages:** C, C++, Java, Python, PHP
- ❖ **Web Technologies:** HTML, CSS, JavaScript
- ❖ **Tools:** Git, XAMPP, PyCharm, VS Code, Ubuntu
- ❖ **Soft Skills:** Leadership (Class Representative), Communication Skills, Problem Solving, Team Coordination, Time Management

EDUCATION

- ❖ CSE (AI & ML) | Vishwakarma Institute of Technology, Pune
CGPA: 9.48 | (Jan '26 - May '26)
- ❖ Information Technology (Diploma) | Government Polytechnic Kolhapur
94% | 2025

EXPERIENCE

- ❖ **Web Developer Intern | Maxgen technologies, Pune** (Jun '24 - Jul '24)
Completed Web Development Internship where I gained practical experience in PHP and web application development while working under industry mentorship on real-world projects. - PHP, MySQL, HTML, CSS.
- ❖ **Software Development Intern | iGAP, Kolhapur** (Dec '24 - Dec '24)
Learned a React Development Internship, where I developed front-end application components and contributed to a project using modern React concepts and best practices. - [React.js](https://react.dev), JavaScript, REST API Integration, Node.js
- ❖ **Project Representative | DIPEX Project Exhibition, Pune** (3 Apr '25 - 6 Apr '25)
Selected as an exhibitor for the DIPEX event in April. Over four days, I had the opportunity to showcase my project and engage with industry professionals, gaining valuable experience in communication and networking.
- ❖ **Core Committee Member & Project Area Head | ITSA** (Mar '25)
Served as a core management committee member for the ITSA technical event, contributing to strategic planning and execution. Led the Project Area division. Managed participant communication and ensured seamless event operations through effective leadership and organization.

ACADEMIC PROJECTS

❖ **Integrated Department Management Portal - HTML | CSS | JAVASCRIPT | PHP**

Designed and developed a full-stack Department Management System to centralize academic resources, user profiles, and faculty information for the IT department. Implemented features such as academic portal access, digital ID card generation, and content management.

❖ **AI-Based ANPRS - HTML | CSS | JAVASCRIPT | PHP | Python | OpenCV | YOLOv8**

Developed an AI-driven Automatic Number Plate Recognition System (ANPR) system to automate vehicle entry and exit tracking using live camera feed integration and number plate detection. Designed a web-based admin dashboard for real-time vehicle monitoring, report generation, and user management, ensuring efficient data handling and system control.

❖ **ResumeCraft - Next.js | MongoDB | Clerk Auth | OpenRouter AI | Tailwind CSS**

Built a full-stack AI-powered resume builder SaaS application with user authentication, live resume preview, and multiple professional templates. Implemented AI resume generation, ATS score checker, and cover letter generator using OpenRouter API. Features dark/light theme, mobile responsive design, and one-click PDF export with cloud deployment on Vercel and MongoDB Atlas.
